

## Prepare to Celebrate

The Town Council has no inside information. It has not the slightest idea when the "Cease Fire" in Europe will come. It may come soon and it may come later, but when Prime Minister Churchill announces that the lights are going on again in London Town, the Council knows that the citizens of Didsbury will want to join with all the folks from the countryside in a day of Thanksgiving and Rejoicing. As the Pioneer goes to press, a meeting, arranged by the Council, of representatives from the various organizations in town is in session, making preparations for the Big Day. This is only a preliminary announcement. It is hoped that when the news comes through, everyone in town and country will be ready to take part in a fitting celebration of a great Victory.

## Pictures Wanted

There has been a good response to the Army Tank's request for photographs of men and women who are now in the armed services, but there are still many who have not sent in pictures.

The exhibition of pictures is being put on by the 14th Army Tanks, and exhibition will be displayed as soon as sufficient pictures are collected, and will last about six weeks.

Relatives are asked to loan pictures for this exhibition and they can be left with Mr. A. W. Haley at the Pool Elevator, or with Johnson & McCloy. The pictures will be cared for and returned at the close of the exhibition.

## Evangelical Church Notes

Rev. A. Traub will preach on Sunday morning, September 10, at 10:30.

A Temperance service will be held at 7:30 p.m., when Rev. Ben H. Spence, acting secretary of the Associated Temperance Forces of Alberta, will bring a Temperance message.

On Monday, September 11, at 2:30 p.m., a Worker's Convention will be held in the Evangelical Church, and in the evening at 8 o'clock, a movie talkie film "It's the brain that counts" will be shown. This is an educational temperance film, and is well worth seeing. All are cordially invited to attend these services.

## Didsbury Jottings

By A.C.H.

Recently, we took a jaunt out to the Rocks for a picnic, and there, carved into the stone before us, was "NIEL GOCHEE".

It flashed into our mind that here was Didsbury's real shrine and memorial. We doubt if there is a Didsbury boy overseas who has not, at some time, climbed these rocks and picniced in their shade. And few, we suspect, who have not carved their names thereon.

We have often thought, as we read from a Cenotaph, how correct and impersonal the printed names appeared. Here, before us, are the uneven careless letters of boyhood, probably scratched in with a broken nail held in grubby, strong young fingers. This would be where he rested his hand. And here, perhaps, is where he laid his friendly young head. There might be more shiny memorials erected to the memory of "Our Niel", but there could never be a truer one.

## Surprise Shower

On Wednesday evening, August 23rd, the neighbors of Mr. and Mrs. Bob Eubank were hosts at a delightful post-nuptial shower given in their honor.

The guests gathered in the long driveway and drove down to their home and certainly surprised the smiling bride and groom. Mr. H. Morgan made the introductions to the bride (nee Miss Helen Armstrong).

During the evening, a very humorous mock wedding was performed, Miss Gwen Morgan taking the part of the bride, Miss Jean Wilson the groom, and Cpl. Joyce Morgan performing the ceremony. Thought-provoking quiz contests were greatly enjoyed.

A delicious lunch was served by the hosts, after which the Misses Shirley Wilson and Verla Irwin carried in a beautifully decorated clothes basket overflowing with gifts, and placed it in front of the bride and groom.

Mr. D. Wilson, on behalf of the guests, welcomed the bride to the community and extended to them very good wishes for many years of happiness together. Bob thanked the guests, saying that he and Mrs. Eubank appreciated very much the friendly spirit of the neighbors. The groom assisted the bride in opening the gifts.

The singing of "They are Jolly Good Fellows" ended a jolly evening, and the guests departed expressing their individual good wishes to Mr. and Mrs. Eubank.

## Proclamation

### IMMUNIZATION WEEK

I consider it not only a duty but a privilege to call to the attention of the citizens of Didsbury National Immunization Week, which will be observed in Canada from September 10 to 16. The goal of health workers during this week will be the greater protection of our children against preventable diseases which take an appalling toll of child life.

We are glad to announce this campaign, for we are determined to put our community at the top of the list of communities in the Province so far as the percentage of immunized children is concerned. I call upon all the citizens of Didsbury to co-operate with the medical officer of health and join in this effort.

Especially must we have the help of mothers of young children who have not yet been immunized against diphtheria, whooping cough, smallpox and scarlet fever. Reinforcing doses of diphtheria toxoid and smallpox vaccine should be given children who were immunized several years ago.

Protection against these diseases is a simple matter today. But this does not mean that it is not of the greatest importance to both individual and community. Your own doctor can give the treatment, or the children can be taken to the clinics which have been scheduled for free protection.

I personally commend this work to your earnest consideration. Let us not forget that "a nation goes forward on the feet of its little children" and that the foundations of a healthy, happy Canada tomorrow must be laid today.

C. E. REIBER, Mayor

## Overseas Christmas Mail

The post office department has issued a reminder that deadline dates for Christmas overseas mail are approaching. Those who propose to send parcels to the fighting men are urged to begin their planning now.

For safe and timely arrival, September 15 is the deadline date for all parcels going to the Far East, India, Burma and Ceylon.

October 5 is the deadline for the Middle East area, Egypt, Iran, Iraq and Syria.

October 15 is the latest date parcels may be safely shipped to the United Kingdom, France and Italy.

The post office department, too, has issued instructions with regard to packing and addressing. The public would do well to follow these with care.

That the boys overseas may not be disappointed, it is recommended that parcels be shipped as early as possible.

**The World of Wheat**  
by H. G. L. Strange**FARM LABOR**  
**URGENTLY NEEDED**

I have just returned from a trip looking at the harvest situation over the Prairies. In many districts there is a serious shortage of labor. Many crops are late, and winter is approaching, so as soon as crops ripen they will have to be harvested in a hurry.

At the moment sufficient labor is not available, and wages therefore are high, and yet we have in Canada tens of thousands of young men fit and strong who would be happy to help. These are the members of the army who have been enlisted for Home Service, and who cannot, under existing regulations, be sent overseas. There is no danger now of an invasion of Canada; it does not, therefore, seem likely that military operations would be harmed if these young men were released for a month or six weeks to help with the harvest.

There is something else, too. Farmers' quotas are low because there is insufficient storage space in country elevators. This is caused to some extent because there is insufficient labor at the lakehead to unload ears. A few more hundred men at the Lakehead would make all the difference, and would enable farmers' delivery quotas to be increased.

Good, strong workers, therefore, are here in Canada, and in my humble personal opinion, should be released at once to help our farmers to harvest this late crop.

**About the "Busy Bees".**

The Busy Bees met at the home of Mrs. Gourding on August 30th, with 5 members present.

The afternoon was spent in tying a baby quilt, teasing wool and packing a ditty bag. Mrs. Frost donated two pieces of wool for making baby quilts; the same was washed by Mrs. W. and E. Jahnke, and will be teased by ladies of the group and carded at a later date.

The next meeting will be held on October 25, at the home of Mrs. Bacon; owing to harvesting and threshing it will be later.

**Rebecca Activities**

Nine Rebecca ladies gathered at the home of Mrs. Erwin Brower on Thursday, August 31, to again do their bit towards aiding the Red Cross.

Each member brought one or more articles which they donated for a seaman's Ditty Bag. The bag was packed and made ready to send. We're sure some sailor will appreciate the contents.

We matched patches and sewed them together to make a very pretty quilt cover for a quilt to be put together at a later date.

We wish to extend many thanks to Mrs. Ed Craig for the donation of a lovely baby quilt, to be turned over to the Red Cross.

It was agreed not to have a meeting during September due to the busy season. However, some of the ladies plan to card the wool on hand so it will be ready to make up when we do hold another meeting. No date was set, but when we can set a date, we will get in touch with the members.

**Notes From the West.**

The annual meeting of the executive of the Didsbury district Women's Institutes will be held Saturday afternoon, September 9, in the upstairs sitting room of the hotel at 3 p.m., by courtesy of the owner. Please note that stuffed toys made by W.I. members should not be packed in the ditty bags, but sent to the Navy League Headquarters separately.

Mr. and Mrs. D. Evans visited with Mr. and Mrs. E. Miller of Westward Ho, on Sunday.

Mrs. Riley Moon and wee baby spent the weekend with her parents, Mr. and Mrs. E. Bercht.

Mrs. E. Lowrie returned home from the hospital on Friday, and we wish a speedy recovery to Jean, who underwent an operation for appendicitis last week.

Mr. and Mrs. E. Parker were Calgary visitors last week.

Mrs. F. Byrt returned home last week, after spending some time with her son and his wife, at Carstairs.

Pie. Gerald Rigby is home on furlough, having been stationed in Jamaica for some time.

**Lone Pine Notes**

Harvest is the topic of the day in this district with everyone cutting and stooking or swathing and combining. Most of the wheat fields are now cut.

Mr. and Mrs. John Mackie and Mrs. Allan Phillips and children, of Arrowwood, spent last weekend with Mr. and Mrs. Joe Clark.

Bill Jenkins, of Turner Valley, spent his two weeks holidays helping with the harvest at his home and returned to the Valley Monday.

LAC Lloyd Anderson and Albert Davidson of Calgary, were at Harold Davidson's over the weekend.

Mr. and Mrs. Charlie Welsh and Mr. and Mrs. Bert Smith, of Calgary, spent Sunday at the Thompson home.

We are glad to report that Jessie McCulloch is now improving, and we hope she will be out of the hospital this week.

Mr. and Mrs. Fred Nelson and children, of Lacombe, spent the weekend holiday with Mr. Hugh McLean.

Mr. Albert Spraggs spent Saturday at Otto Bittner's.

**Ceiling Price on Honey**

All extracted honey, regardless of size or style of container, is governed by a price ceiling. Reminding consumers that a ceiling price of 15 cents per pound and a ration value of one coupon per two pounds has been set on bulk honey, the Wartime Prices and Trade Board seeks to clarify any misunderstanding.

Take most of your money in **WAR SAVINGS STAMPS**

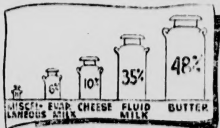

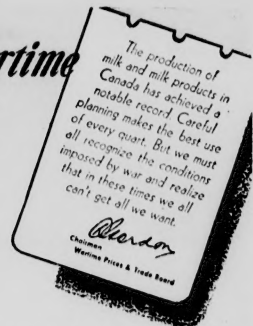

from YOUR GROCERY, DRUG AND TOLUCCO STORES—ALSO RESTAURANTS, BARS AND POST OFFICES

**CLASSIFIED ADS****about the things you buy in wartime****Milk IS NOT ELASTIC**

Milk is our most valuable food. It must provide us with milk to drink, with butter, cheese, evaporated and concentrated milk and a score of other products.

Canadian farmers have done a magnificent job. They have increased

milk production in 1943 by more than 540 million quarts over 1938. They have done this in the face of a 25% reduction in farm labor, equipment shortages, and the fact that it takes two to three years to bring a calf into milk production.

The above graph shows in percentage how the total Canadian milk supply is used.

**WHAT HAPPENS TO ALL THIS MILK?**

In spite of greater production, the demand for milk and milk products has risen even more, because—

- There's more money to spend;
- More people are working, with changed food habits and increased food needs;

(c) Our Armed Forces and Allies

It has therefore been necessary by rationing, by subsidies, by careful planning and by other controls to divert our milk supply into channels most suited to our various food needs.

**FLUID MILK TAKES 35% OF OUR MILK**

Because fluid milk is regarded by nutritionists as the most nearly perfect food, nothing has been allowed to interfere with its sale. Today, Canadians are drinking more milk and a greater percentage of our milk supply is being consumed as fluid milk—than ever before. Fluid milk has the right of way, but don't waste a drop of it.

**BUTTER TAKES 35% OF OUR MILK**

In the first three years of war, our butter consumption increased 100%. So, rationing was established to prevent too much milk going into butter, at the expense of other important milk products, and to insure a fair share to everyone.

The rationing of butter was influenced by the fact that it has less nutritive value than some other milk products, and because we get a generous supply of fats or their food equivalent in other forms.

To maintain a proper balance of consumption between various milk products and to ensure that butter is put into storage for winter use—when production drops—it is necessary to reduce the ration from time to time.

**CHEESE TAKES 10% OF OUR MILK**

Canada's annual cheese production has gone up by about 37 million pounds since the war.

Cheese is a concentrated food product—easily stored and stored. That is one reason why we send large quantities to Great Britain to help meet its pressing food needs. While in the last year we exported four of every five pounds of cheese we made, our production has been so increased that we have left for domestic use about three million pounds a year more than before the war.

**EVAPORATED MILK TAKES 6% OF OUR MILK**

More than twice as much (152 million lbs.) was used by Canadians this last year as in 1938 (74 million lbs.). And yet, there has not been enough.

Where has it all gone? It's an important food for babies—and there are 100,000 more of them a year. Larger quantities have gone to areas where fresh milk is not available. Armed Services have added new demands. In spite of this, our exports of evaporated milk to Great Britain, Newfoundland and the West Indies, etc., are maintained at pre-war level.

**ICE CREAM AND OTHER MILK PRODUCTS TAKE ABOUT 1 1/2% OF OUR MILK**

The manufacture of ice cream is restricted to the 1941 level because milk is needed for other purposes. Milk Powder and Condensed Milk are taking

ing more milk. Milk sugar is used in the manufacture of Penicillin and for other wartime purposes. Casein (a milk by-product) is used in making glue for aeroplanes.

90% OF THE MILK PRODUCED IN CANADA IS CONSUMED IN CANADA

**THE WARTIME PRICES AND TRADE BOARD**
